AWEC 2024 Final Abstract Submission

First Author¹, Second Co-author²

¹University of Freiburg

² Partner A.G.

AWEC 2024 is excited to gather the most recent developments in the field of airborne wind energy [1].

Please submit the final version of your AWEC 2024 abstract to info@awec2024.com. The subject-line of the email should be: "Final Abstract Submission." The deadline for final abstract submission is Friday the 2nd of April.

We ask that the abstract fit within the space provided by this template (typically less than 300 words without an image). Also, in order to fit the image of presenting author and university logo in the confined space, please limit the height and width of pictures to 1.18 inch.

Please send us all of the files necessary for US to compile latex version of your abstract, as well as your Word/ LibreOffice file so that we can ensure that our compilation matches your vision.

Thank you. We hope to see you soon!

Experimental trial of a half-wing kite in rotational-start, controlled with non-linear model predictive control.
